That Arson Case.

We have been charged with doing the Governor injustice in our article on the arson case on the 28th ultimo, but nothing was farther from our intention. We labored hard for his election, because his course had proved him to be the right man in the right place. He was our choice, and we are satisfied with him, believing him to be incorruptible and fearless in the discharge of his duties. The article in question was based upon the supposition that the transcripts required by law had actually been prepared and forwarded. We knew certain papers were prepared and duly certified to, and supposed of course they were all there. It seems, however, that the entire transcript was not prepared, and the Governor had no power to act in the premises otherwise than he did.

Dueling.

A broker and a coal dealer in New York, fought a duel and nobody was hurt. Those papers of the South which favor "the code" are now holding up the North to ridicule because of this performance between two hair-brained individuals. Two more fools in New York add but little to the vast number of such, there as well as elsewhere, and we do not see why the North should be utterly ruined and cast forever into the shade by these cruel critics of the Southern press! It's very serious to contemplate. To be sure, we have as yet seen no paper in the North praising the heroic conduct of the gold broker or the coal dealer, but now that they have met on the field of honor (?) we suppose no remarks can be made against the nonsensical "code." The fashion for "young bloods" to wear swords has long since passed away, and although we regret to say many of them carry concealed weapons, we can see no good reason why the equally ancient and absurd fashion of settling disputes by a resort to arms should be maintained. The sorrow and desolation felt by the mourners over the untimely death of a young man in Richmond recently killed in a duel can never be assuaged by an advocacy of this fashion, and whatever be the fate of the survivor, the vision of that dreadful scene and the recollection of the sorrow he has caused, should rise up before him in horrible distinctness all his life. No good has been accomplished. The survivor has committed murder according to the laws of his State and should be forever shunned by his former associates.

An equally bloody duel in Mississippi, but a few days ago, between an editor and an attorney, resulted in the death of one of the parties, and to-day the wail of the dear ones left behind are ascending to Heaven. Is honor satisfied? Can the man who deliberately stands up, and although facing a pistol, coolly kills his antagonist, lay any stronger claim to respectability or integrity than heretofore? We think not. We are not in favor of dueling, North or South. They never accomplish good, and very often inflict lasting suffering and want upon innocent women and children, against whom no chivalric son would make war.

The reports of the National Banks, showing their condition under the last call of the Comptroller of the Currency, are coming in good season and quite rapidly. Five hundred were received Tuesday.

The new member on the part of Mexico of the Mexican Claims Commission has arrived in New York, but has been detained in that city by sickness. As soon as sufficiently recovered he will come here and enter upon the discharge of his duties. There are about two hundred unadjusted claims pending, but it is not likely that much will be done toward settlement until cooler weather.

Many persons who filed claims before the Commissioner of Internal Revenue asking for a refund of taxes, and got the said claims in before the act of Congress fixing the statute of limitation which provided that said claims were not allowable unless presented within one year prior to that act, are in doubt respecting alleged negligence relative to the disposition of their claims. The intention of the Bureau, however, is to dispose of all pending claims for refund before the new ones under the above mentioned act are reached.

CORN is said to be backward in Alexander county.

## EDITORIAL BUDGET.

The Shah's departure for France has been deferred until Saturday.

Eight thousand weavers of Berlin have struck for an increase of 33 per cent. on their wages.

The Cortes has approved the bill conferring extraordinary powers upon the Government. The vote on the adoption of the measure was 138 to 18 nays.

It is announced that the receipts from internal revenue in the United Kingdom for the fiscal year were £75,896,000; a decrease of £370,000 from the preceding year.

A meeting was held in London on Monday, at which resolutions were adopted protesting against the introduction of the confessional into the Church of England. The Earl of Shaftesbury presided, and the meeting was large and influential.

The Shah of Persia visited the Bank of England Tuesday. His Majesty entered the building at 2:30 P. M., and remained therein a considerable time. An immense crowd was gathered in front of the bank, and the Shah on making his appearance was loudly cheered.

The British Consul General in Egypt warns travelers against taking the route via Venice for Egypt, as steamers from that city are quarantined at Alexandria on account of cholera, which is reported to exist in the north eastern ports of the Adriatic.

The Birmingham and Wolverhampton journals express alarm at the decrease of orders for hardware from America, and at the remarkable development of the trade in the United States whose manufacturers are supplanting those of England in the Colonies and South America.

Dufaure, late French Minister of the Interior, has introduced a motion in the Assembly for the immediate consideration of the constitutional bill proposed by President Thiers before his resignation. It is anticipated that the Right will split upon the question.

A special dispatch from Madrid to the London *Times* says: The present Spanish ministry is regarded as satisfactory by all parties. Senor Carvajal, Minister of Finance, has made arrangements to pay the coupons falling due in July. The correspondent of the London *News* at Madrid telegraphs that the irreconcilables in that city have made several denunciations, but they were of a significant character. The troops are in readiness to suppress any formidable outbreak that may be made. The *News* correspondent also says another crisis in the Government is feared. Since the fall of Khiva the Government of Russia has renewed its assurances that its troops will retire from the country when the Khan has been sufficiently punished for his treatment of Russian subjects.

## WASHINGTON NOTES.

The Internal Revenue Bureau is making few or no appointments now, except in the matter of storekeepers and gaugers, who are being appointed in accordance with the increase of distilleries, which is going on quite rapidly in certain districts of the West.

Most of the heads of bureaus in the several departments of the government have instructed their subordinates to make up their annual reports as speedily as practicable, that they be incorporated in the bureau reports and transmitted to the heads of departments at an early day.

Chief Engineer David Smith, ordered to the Senandoah, of the European squadron, per steamer of July 9. Chief Engineer S. L. Payers has been detached from the Shenandoah and ordered to return home. Naval Constructor John Lenthall, from special duty, and placed on waiting orders.

The compound pressure engines will be placed on the new sloops of war, it is said. The navy department has ordered investigations into the merits of these engines, which are now in progress at Annapolis, Md. The wasted steam which escapes from ordinary engines is said to be utilized by this new invention.

The Executive Department of the government sent out letters and packages to day with postage stamps instead of franks, as heretofore. Ladies are generally employed in the work of affixing the stamps for the various divisions. Most of the departments have made arrangements to send the city mail to its destinations by carriers of their respective offices.

The Commissioner of Internal Revenue has been under the opinion that on account of the change of the large number of officers charged with the administration of internal revenue collections money might be lost to the Government through the confusion, but such has not been the case, Commissioner Douglass pronouncing the funds during the transfer all safe, and the collections for the past month averaging \$300,000 per day.

## THE TOWN CRIER.

Sultry. Vegetation luxuriant. Cantelopes are scarce. Crops are looking fair now. Fruits are becoming plentiful. Pears at George Myers' in abundance.

Fourth of July whiskey is dangerous. When will this Aldermanic muddle be settled.

Be sure and have something fine for the fair next fall.

Wilmington S. F. E. Co. No. 1, meets to night in regular meeting.

Election time gradually approaches, but times are quiet as yet, thank the Lord.

No Post to gladden the people to-morrow. But then, most of them will be out of town anyway. So they won't feel so badly.

The click of the press across the street, at the midnight hour, reminds us of the labor of preparing news.

The cars on the Weldon Road ran over one of Dr. Scott's hogs, near the Poor House, and cut off his tail just back of his ears! That hog was made into sausage meat with wonderful celerity.

Henry Willis and Ned Huffman were committed to jail this morning. These worthies were sent here on a commitment from Squire McPherson, of Rocky Point, and are now in custody.

A COLORED boy in the employment of one of our Front street merchants requested his employer to let him go to the sound tomorrow. His employer told him he could go with one proviso, and the youth very innocently asked, where does he live. Next.

Prospectus for 1873.

SIXTH YEAR.

THE ALDINE,

An illustrated monthly journal, universally admitted to be the handsomest periodical in the world. A representative and champion of American taste.

NOT FOR SALE IN BOOK OR NEWS STORES.

THE ALDINE, WHILE ISSUED WITH all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature, and a collection of pictures, the rarest specimens of artistic skill, in black-and-white. Although each successive number affords a fresh picture to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim anterior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproachable—absolutely without competition in price or character. The possessor of a complete volume cannot duplicate the quantity of fine paper and engravings in any shape or number of volumes, for ten times its cost, and then there are the chromos besides!

ART DEPARTMENT.

Notwithstanding the increase in the price of subscription last fall, when THE ALDINE assumed its present noble proportions and representative character, the edition was more than doubled during the past year, and the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will astonish and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce that THE ALDINE is one of the most eminent artists of America.

In addition THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success and greatest general interest, avoiding such as have become familiar through photographs, or copies of any kind.

The quarterly tinted plates, for 1873, will reproduce four of John S. Davis' infinite child-sketches; appropriate to four seasons. These plates, appearing in the issues for January, April, July and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously-illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art world, at a cost so trifling, will command the subscriptions of thousands in every section of the country, but as the usefulness and attractions of THE ALDINE can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance doubly sure" by the following unparalleled offer of

PREMIUM CHROMOS FOR 1873:

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive without additional charge a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures entitled "The Village Belle" and "Crossing the Moon," are both oil-chromos, and are made from 25 different plates, requiring 25 impressions and hints to perfect each picture. The same chromos are sold for \$30 per pair in the art stores. As it is the determination of the conductors to keep THE ALDINE out of the reach of competition in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, over the signature of the publisher, certifying that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of this grade, free to the subscribers of this periodical, will mark an epoch in the history of art, and considering the unprecedented cheapness of the price for THE ALDINE itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improving mechanism of appliances. (For illustrations of these chromos see Nov. issue of THE ALDINE.)

THE LITERARY DEPARTMENT

will continue under the care of Mr. Richard Henry Stoddard, assisted by the best writers and poets of the day, who will strive to have the literature of THE ALDINE always in keeping with its artistic attractions.

TERMS:

FIVE DOLLARS per annum, in advance, with oil-chromos free. THE ALDINE will hereafter be obtainable only by subscription. There will be no reduced or club rate; cash for subscription must be sent to the publishers direct, or handed to the local agent, without responsibility to the publishers, except in cases where the certificate is given, bearing the fact-simile signature of Jas. Sutton & Co.

We especially call the attention to the following testimonials of the Paint:

C. P. Knight, Esq.—Dear Sir: I have used Bradley's Patent Enamel Paint on my dwelling last Spring, and am much pleased with it, and it looks as well now as when first painted, and consider it a good Paint. Yours truly, A. H. STRASBAUGH.

The PLAINS, FAUGUER CO., Va., Feb. 6th, 1873.

Mr. C. P. Knight—Sir: The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did not job myself. The weeks, (not constant work,) completed the house two coats. The last coat I applied thick, and it is now generally conceded that for enamel-like hardness, and body, and in harmony of color, there is not a handsomer job in the place. I saved sixty-five dollars by the operation, which is an item just now with Southern people. It should be generally adopted in this State. Any country lad can apply it. I have never dabbed in such stock as testimonials, but I feel so forcibly the great adaptability of your "Enamel Paint" to the wants of our people, in excellency of material, in beauty of color, and in the fact of being "ready mixed" that I give you free permission, if it is desirable to you, to make what use you think proper of this letter.

S. MCGILL, M. D.

To THE PUBLIC—It affords me much pleasure to state that in July, 1871, Front Street Theatre was painted and varnished out with "Bradley's Patent Enamel Paint," for which C. P. Knight, Esq.—99 West, Lombard Street, is agent, and, to testify to its superiority over any paint ever used in similar uses. In no private dwelling can paint possibly be subjected to the very severe test it undergoes at this establishment, where, during our daily cleaning, soap and soda are constantly applied to it, and yet it appears as sound and fresh as when put on. Of the numerous advantages it possesses over other paints, I will only mention its being mixed and ready for use in quantities to suit purchasers, its quickly drying properties, which saves much time in the execution of work were paint is needed, and its very perceptible tenacity, which imparts beauty and durability to the objects on which it is used. As such I most earnestly recommend it to the merchants and tradesmen of our city, believing it will earn greater satisfaction than they can possibly anticipate.

W. M. E. SINN,

Mr. C. P. Knight—Sir:—The Paint came safely to hand as ordered—two kegs, five gallons each, and three buckets, one gallon each. As practice was slack, I did not job myself. The weeks, (not constant work,) completed the house two coats. Yours truly, JACOB STOUFFER & SON.

FRONT STREET THEATRE, CHAMBERSBURG, Front Street, 1872.

Mr. C. P. Knight—Dear Sir:—The paints we received from you have been applied to several of our own buildings and to those of our friends, and have given entire satisfaction, covering qualities in gloss, and in adaptability to all kinds of surfaces of material and we cheerfully recommend it, especially to that class of consumers who have to depend upon unknown parties, or painters to mix and furnish materials, wherein we have found the most deception.

Yours truly, JOHN WETHERED.

FROM HON. JOHN WETHERED.

Mr. C. P. Knight—At the recommendation of a friend, I was induced to apply your paint to my house. I have pleasure in stating that it has proved highly satisfactory, covering more surface than you promised, is more economical, carries better gloss than ordinary paint, and is freer from disagreeable odor.

Yours, Respectfully, JOHN WETHERED.

BALTIMORE, December 27th, 1871.

Mr. C. P. Knight—Dear Sir:—The paints we received from you we are cheery to use the best of any kind we have ever used; its covering qualities is everything desired, drying promptly and with a hard gloss which makes it a pleasure to the eye. We have had no trouble in the action of all kinds of weather. This is our experience, and we can recommend it with certainty, and intend to use it on all occasions where we desire a good job of work.

Very Respectfully, EDMUND PESCHAU.
